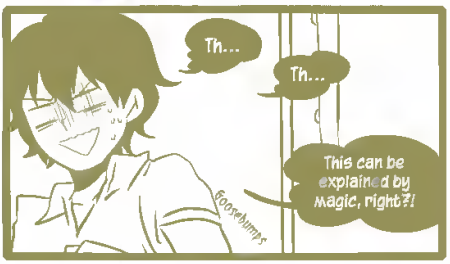
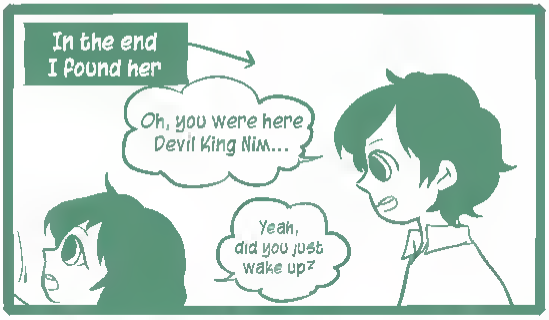
#25. Logic King



#26. Whhhaaat?!



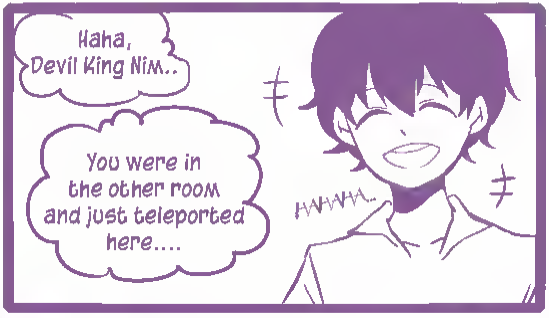
In the end I found her
Oh, you were here Devil King Nim...
Yeah, did you just wake up?

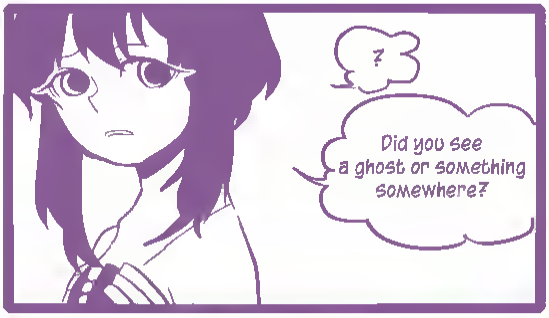
Is here a study room?
You actually didn't come so far when I think of the fact that you teleported?

Teleport?
No, I didn't use it ..
What are you talking about

?!

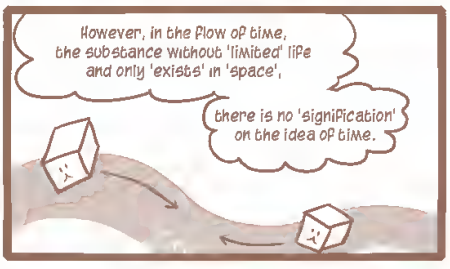
#27. What did you say?!



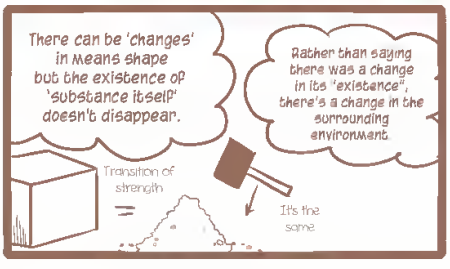


#28. I don't know what you're saying

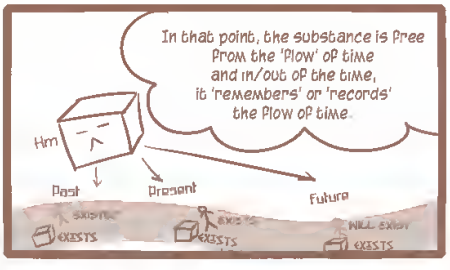
All existing things with life lives in time.
In that case, we exist 'living' and 'dying' with the stream of 'remembering' the past and 'imagining/predicting' the future
indeed it is
indeed it is
indeed it is
PRESENT
PAST

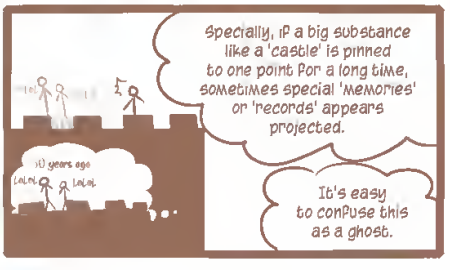


However, in the flow of time, the substance without 'limited' life and only 'exists' in 'space',
there is no 'signification' on the idea of time.



There can be 'changes' in means shape but the existence of 'substance itself' doesn't disappear.
Rather than saying there was a change in its "existence", there's a change in the surrounding environment.
Transition of strength
=
It's the same





Specially, if a big substance like a 'castle' is pinned to one point for a long time, sometimes special 'memories' or 'records' appears projected.

it was too long and complicated
so I didn't listen.
